DETAILED ACTION

1. The amendment E filed 5/11/04 has been entered. Claims 1-22 are pending in this Office action.

Claim Rejections - 35 USC § 112

2. Claims 12-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 12-16 are narrative in form and do not contain positively recited steps of a specific process. Note that method claims should be set forth a series of steps in the active tense in an instruction-like manner thereby reciting an actual method. The claim only recites a single step without any additional steps delimiting how its use is actually practiced. Dependent claims (if applicable) should further limit base claims by reciting additional method steps in a likewise fashion. Ex parte Erlich 3UPQ2d 1011 at 1017 [6].

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35U.S.C. 102 that form the basis for the rejections under this section made in thisOffice action:

A person shall be entitled to a patent unless -

- (a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.
- (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Application/Control Number: 09/499,014

Art Unit: 2637

The changes made to 35 U.S.C. 102(e) by the American Inventors

Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology

Technical Amendments Act of 2002 do not apply when the reference is a U.S.

patent resulting directly or indirectly from an international application filed before

November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 12-16 are rejected under 35 U.S.C. 102(e) as being anticipated by Olafsson (U.S. Pat. 6,163,570).

Regarding claims 12-14, Olafsson discloses a PCM modem as shown in Figure 2, including an analog modem (204) coupled to a digital modem (202), a method for controlling the transmit power of the analog modem comprising using a measured transmit power level of at least one of analog modem and the digital modem as a parameter in designing a constellation (col. 5, line 2 to col. 6, line 11).

Regarding claims 15-16, Olafsson discloses wherein the PCM modem system adjusting the power level of the analog modem by transmitting mapping parameters including the equivalence classes used in the analog modem (col.7, lines 41-59, and col.8, lines 24-45, i.e., the modem 202 may lower the transmit power limit to ensure that its computational precision does not cause an erroneous acceptance or rejection of training points or a signal point constellation set designed by modem 204).

Application/Control Number: 09/499,014

Art Unit: 2637

Allowable Subject Matter

Claims 1-11, 17-22 are allowed. 5.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to KHAI TRAN whose telephone number is (703) 305-1876. The examiner can normally be reached on 7:00AM - 4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, JAY PATEL can be reached on (703) 308-7728. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pairdirect.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (tollfree).
